

Do it Yourself „Freda crazy“

Here you can cut out your own flip-flap book with Freda's friend and even create your own characters.

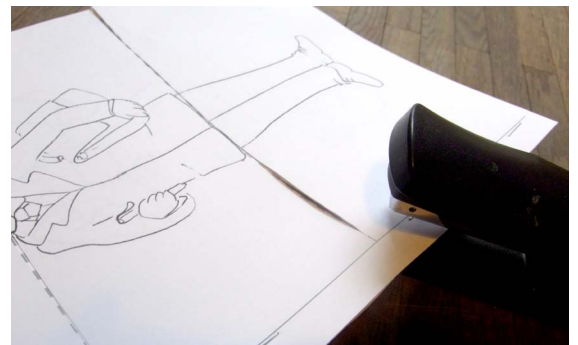

You need:

*the printed out pattern
scissors
a stapler or glue
pencils and pens*

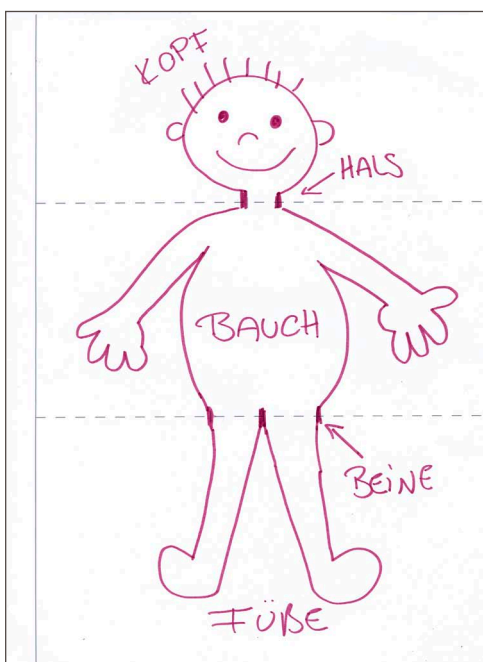

Colour the pictures.
Cut along the dotted line
Careful!

Stop cutting at the continuous line, don't cut the picture into pieces!
The picture of the pig is at the bottom and stays uncutted.

Stack all pages carefully and staple or glue the together.

You can also create your own characters:

Print out the first page of the pattern as many times as you need.

The top part is for a head, the middle for a belly and the bottom for the legs.

Stay within the small lines with neck and legs so that all characters fit together.
